KIT ASSEMBLY

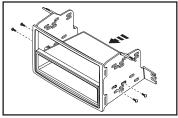

ISO DIN radio provision with pocket

Note: Select the proper radio housing for your vehicle. EX models use the (EX) Double DIN Trim Plate and (EX) brackets, LX models use the (LX) Double DIN Trim Plate and (LX) brackets

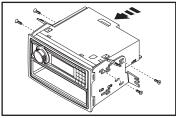

- Clip the radio brackets onto the radio trim panel. (Figure A)
- 2. Attach the **pocket** to the lower section of the **radio brackets** using the (4) #8 x 3/8" Phillips screws provided. (Figure B)
- 3. Remove the metal DIN sleeve and trim ring from the aftermarket radio.
- **4.** Slide the radio into the bracket/pocket assembly, and then secure using the screws supplied with the radio. (Figure C)
- 5. Locate the factory wiring harness and antenna connector in the dash and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/ or AXXESS. Test the radio for proper operation.
- Reassemble the dash in reverse order of disassembly.
